

Hello Activity Directors and Service Coordinators:

My name is Cliff Belleau and I am a Mobility Specialist with Source One Medical. I help seniors *stay active* with power wheelchairs. I work with activity directors and service coordinators to schedule “Mobility Seminars” at their facility.

How will a “Mobility Seminar” benefit your residents? A Mobility Seminar will give your residents and their family the ability to ask questions about insurance mobility benefits (Medicare, Medicaid, and private insurance plans), test ride a power wheelchair, and determine if they qualify for a mobility benefit. They can do this without any obligation (We do not sell anything at a Mobility Seminar.). When the time is right and they need a power wheelchair, then they will have the knowledge to make a more informed decision.

Please contact me by phone to schedule your “Mobility Seminar”. Remember, there is no cost or obligation either to your facility or the resident. It is all about having fun and giving your residents the best information available.

Sincerely Yours;

Cliff Belleau Jr.
Regional Mobility Specialist
